## Our Business Japanese Curriculum

**01.  
Formal  
Greetings**

**02.  
Conducting  
Meetings in  
Japanese**

We teach and coach the way you use your Japanese while conducting any formal situations such as business meetings, phone calls, dealing with clients and job interviews.

**04.  
Negotiations  
& proposals**

**05.  
Writing emails**

There are particular nuances which are difficult to be taught on textbook or from general Japanese and can only be learnt from real life situations. Our experienced teachers can offer their expertise.

Writing emails in Japanese can be challenging. Once mastering the appropriate formatting and correct usage of keigo and way you address the receiver, the process can be smooth and effortless.

**06.  
Presentations**
